

SHYLOW

DJ, Producer and Visual Jockey from Sri Lanka

BIOGRAPHY

He is known for his unique style of DJ and VJ imagery across the Sri Lankan clubbing scene and live Music festivals, also uses his unique ability that serves as the perfect eye-candy for the partying crowd, wherever he performs.

Shylow began his career as a DJ and Production in 2018 and VJ in 2019. The main reason to start VJing is because of his own festival Neverland which required a really good VJ and VJ was relatively a new Term in Sri Lanka, even though there were many VJ's but they were never DJ's. As a DJ and a Producer he can identify the song structures which makes Shylow a great VJ.

So he first performed at Neverland Music Festival (one of the biggest to take place in Sri Lanka) at club parties around Colombo and then joined DJ Senter team.

Ever since then, he has been a DJ, Visual Jockey and a DJ Instructor at DJ Senter Sri Lanka.
